Professional Summary	<p>Passionate Graduate Architect with three and half years of experience in design studios and two years in community-centre administration. Holding a Master of Architecture, I bring a well-rounded blend of academic knowledge and hands-on industry experience. I am committed to creating innovative, human-centred designs that prioritise user experience and respond to real-world needs. With a solid foundation in design, documentation, and collaboration, I aim to build a long-term career designing thoughtful, functional spaces that respond to context and enhance the built environment.</p>
