

Dwellings Parti Diagram

The diagram illustrates eight different dwelling types, each with its dimensions and a north arrow indicating orientation.

- 1: 3.4m x 9.2m x 3.7m
- 2: 3.4m x 9.2m x 3.7m
- 3: 3.4m x 9.2m x 3.7m
- 4: 3.4m x 9.2m x 3.7m
- 5: 3.4m x 9.2m x 3.7m
- 6: 3.4m x 9.2m x 3.7m
- 7: 3.4m x 9.2m x 3.7m
- 8: 3.4m x 9.2m x 3.7m

The Liveable And Adaptable Home

The project exemplifies a commitment to universal design standards by prioritizing equitable access and usability for individuals of diverse backgrounds and abilities. This is evident in key aspects, including equitable access to sunlight and views in residential spaces, ample circulation, and incorporating textures and chamfered edges for the visually impaired. The design embraces an open-plan layout to minimize obstruction and facilitate easy circulation. Additionally, the focus on single-story dwellings with interiors designed according to universal design principles ensures accessibility for all, eliminating steps or thresholds and allowing smooth interior circulation, particularly for individuals using wheelchairs.

Proposed Dwellings

Residential Block 1

Residential Block 2

Residential Block 3
